Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species I, claims 1-23, 26-29, 31, 32, and 34 in the reply filed on 7/30/04 is acknowledged. However, upon reconsideration the Examiner has concluded that there should have been a restriction done in addition to the prior restriction. The Examiner apologized for any inconvenience brought upon the Applicants. An additional restriction is necessitated due to the recognized divergent subject matter.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19, 21-23, 26-29, 31, 32 and 34, drawn to a pet drinking device, classified in class 119, subclass 51.01.
 - II. Claim 20, drawn to a method of providing moving aerated drinking water to pets, classified in class 119, subclass 51.01.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus such as without using a pump.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. Furthermore, if **Invention I** is selected then a further election is required to the following patentably distinct claimed invention:

Elect from one of these distinct inventions:

- IA.** Claims 1-19, 21-23, 27-29, 31, 32 and 34, drawn to a pet drinking device, classified in class 119, subclass 51.01.
- IB.** Claim 26, drawn to a water reservoir for a pet drinking device, classified in class 119, subclass 51.01.

Inventions IA and IB are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it does not require a handle connected to the top. The subcombination has separate utility such as for use as a water container for a human being instead of a pet.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trinh T Nguyen whose telephone number is (703) 306-9082. The examiner can normally be reached on M-F (9:30 A.M to 6:00 P.M).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on (703) 305-7421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
